

**INITIAL**

**FINAL**

"I wanted to thank you for sharing your wisdom and knowledge with me and all of our profession and allowing me to learn how to really help my patients at the next level. Allowing us to finish on time, making them happy and giving them a confident and Wow smile, while removing the barriers.

I debonding this patient this week. She and her mom were super excited, happy and grateful. They had other opinions all of which called for surgery and even some for extractions. Didn't believe me at first, that this was even possible. I told them that my mentor taught me how and I would send him a message of thanks from them.

Sincere thanks from me, my team and my patients for all you have shared and continue to share with us and for being a great teacher and giver. It's because of you that we can deliver this gift for our patients."

- Dr. Rael Bernstein, WOW Smiles Orthodontics
