

INSTRUCTIONS FOR USE

ORTHODONTIC APPLIANCES

1. Intended Use

WCT product(s) are for Professional Use Only by dental professionals in the recommended indications.

Devices are supplied:

- Non-sterile
- Designed for single-use
- For use by dentists and orthodontists only

WCT devices are intended to be used in conjunction with other orthodontic devices. WCT orthodontic appliances are used to aid in the movement of natural teeth in patients with malocclusion during orthodontic treatment.

2. Indications for use

WCT products are intended to aid in the movement of teeth during orthodontic treatment.

3. Contraindications

- Patient's inability or unwillingness to cooperate/or follow the treatment plan.
- Known allergies to any of the components or materials in the system.
- Any illness and/or underlying conditions that preclude orthodontic treatment.
- Any existing tooth root resorption.
- Any existing decalcification of the tooth enamel.
- Patients with deficient oral hygiene.

4. Warnings and Precautionary Measures

	Federal law restricts this device to the sale by or on the order of a licensed orthodontist.
	WCT Orthodontic Appliances are designed for single use patient use only, by a professional or on the order of an orthodontist or a dentist. There is a risk of cross-contamination between patients if re-used.
 <small>Contains Nickel and/or Chromium</small>	Do not use on patients with known allergies to any of the materials in the system.
Immediately remove Orthodontic Appliance(s) in the event of an allergic reaction.	
Follow all regional and national standards regarding the use of orthodontic appliances.	

Do not use any products which are damaged, or do not comply with the labeling specifications.

Patients should avoid hard and/or sticky oral insertions throughout treatment.

MRI Safety Information – Orthodontic Appliance(s) have not been evaluated for safety and compatibility in the MR environment. It has not been tested for heating, migration, or image artifact in the MR environment. The safety of the bracket system in the MR environment is unknown. Scanning a patient who has this device may result in patient injury.

If, in relation to use of WCT Orthodontic Appliances, a death or serious deterioration of health has occurred, this should be reported to the manufacturer and the competent authority of your country.

5. Patient Information

- There is no information available which would preclude the use of commonly available oral healthcare products.
- Chewing hard foods can cause appliances to be damaged.
- Some sports may cause damage to orthodontic appliances, and their presence may increase the risk of harm in the event of certain sports-related injuries.
- When participating in sports, always wear appropriate mouth and/or bracket guards as recommended by the dental professional treating the patient.
- Always inform the MRI or radiology staff that braces are in place before any procedure to ensure appropriate measures are taken for the procedure.

6. General Information for the Dentist/Orthodontist

- As part of developing a treatment plan, and before appliance placement, assess the need for interdisciplinary coordination with other professionals, such as speech pathologists, otolaryngologists, physicians, dentists and/or orthodontists.
- Follow the manufacturer's instructions for any orthodontic bonding agents, instruments or other materials used in the orthodontic treatment.
- Orthodontic training in standard procedures will determine appropriate instruments for use during appliance placement and removal.
- Do not touch bonding surfaces with bare fingers since skin oils may diminish adhesion.
- Oral hygiene is of particular importance for immunocompromised patients. Closely monitor oral hygiene on immunocompromised patients.
- Assess whether further orthodontic treatment is advisable in the presence of root resorption.
- Proper removal of orthodontic appliances is important to avoid any possible damage to tooth enamel.

7. Disposal (if applicable)

- Disposal of all orthodontic appliances must follow regional and national regulations.

8. Storage and Handling for medical devices (if applicable)

- The device should be kept in original package or airtight box in a dark drawer at room temperature.
